ABH SCREENING TOOL ASSESSMENT

INFORMATION & INSTRUCTIONS

WHAT IS A SCREENING TOOL?

It's an official assessment method for entry into ABH accommodation which asks a series of straightforward questions about whether a person with a disability and additional needs could manage daily life in an ABH.

WHY DOES MY CLIENT NEED ONE?

ABH operators are not permitted to admit new residents without a screening confirming that the person is eligible.

HOW DO THEY GET ONE?

Let us help you with these easy steps:

1. CALL OR EMAIL US

That way we can get to know your client a bit better!

2. BE READY FOR AN INITIAL PHONE CALL WITH ASSESSOR

This will allow the assessor to better determine suitability for entry into an ABH

3. PREPARE FOR A FACE TO FACE MEETING

This will be between your client and the assessor. Location is negotiable but bring as much information re your client's health as possible!

4. ALL DONE!

We will follow up directly re your application outcome.
